Can't believe March is already upon us. It seems like the months are flying by much too quickly. February was a flash and I am sure summer will be here in the blink of an eye. We had lots of exciting events that occurred in February and have much more to come in March.

We are delighted with the progress of all our children at this point of the school year. All have totally excelled in all their preschool activities. Our staff feels so fortunate to have such delightful, bright and beautiful children.

We also appreciate all of our parents' efforts in our behalf. Your participation and communication makes our job so much easier. Thank you for taking the time to allow the Teachers to complete the home visits.

March presents another fun filled and busy month in our center. We will continue to fill the student's days with a combination of fun activities, educational games and many other events.

Don't forget Daylight Savings Time starts on March 12, 2023.

Set those clocks ahead one hour.

Message from your Family Advocate Annette Gregory

Spring is right around the corner even though it feels like Summer! Spring cleaning isn't just about deep cleaning and organizing hall closets, it's about decluttering and getting rid of stuff you no longer need. What better way to rid your house of all that excess than by having a yard sale! It's a great way to clean and make a little money at the same time! I am currently talking with everyone to update goals. For children returning next year appointments are being scheduled for April to complete paperwork.

Classroom #1

In the month of March, we will continue our Building Study. We will learn about different types of structures from around the world, we will learn about the job of an architect and what blue prints are. Students will be creating their own blue prints to describe the spaces/ rooms in their building. In Second Step we will be focusing on Unit 4: Friendship Skills and Problem Solving. With the Pyramid Model we will be talking about Tucker the Turtle learning some important steps to help manage feelings and emotions.

Thank you for your cooperation and support!

Classroom # 1 Teachers,

Mrs. Keyla
Ms. Jan
Mrs. MahJabin

Classroom #3

We continue our study on Buildings. Learning about what buildings are in our town and how they are constructed. How you build a house, what types of materials you use in building a house, and who helps to build a house.

We will also be exploring rainbows and the color green.

Mrs. Blanca/Mrs. Adela
